Subject: RE: [Non-DoD Source] Raytheon Missile Systems experimental filing to continue testing in Kauai
Date: Thursday, October 12, 2017 12:46:14 PM

Anne--thanks for the heads up. The MAG has no problem with the extension.

Randy

Hi Randy,

In May, Raytheon sought a temporary authorization from the FCC for operations based out of Kauai for UAV flights over the Pacific Ocean. You gave the ok for use of the frequency 351 MHz for the testing. Today, I have filed an application at the FCC to extend that testing, since the Navy is interested in further development of the technology. The new application is 0802-EX-CN-2017. The application filed today does not change a thing from what was originally authorized. It is identical.

I am writing to give you a heads' up about this. If you need additional information, a copy of the exhibit, or anything else, please let me know and I will get you the information.

I really appreciate your help with our filings.

Have a great day,

Anne
