

Fort Bragg, North Carolina

Demo Location

Close up of
operational area

Demo Location

Proposed tower location: Field IVO Fort Bragg, NC

Dates: 6-10 December 2020

Concept of the Operation:

- Testing radar in support of Commanding General, 18th Airborne Corps initiatives
- Radar will be on for only a portion of each day, detecting small UAS only
- No spoofing or RF detect/defeat will be used
- Radar will be off at night and will be dismantled upon completion of exercise
