Subject: Additional Information Request

Message:

- 1) "Testing various wireless technologies on an interim basis." This statement is vague and doesn't tell me anything about your experiment. Please provide in-depth narrative that describes your experiment.
- 2) The frequency request is broad. Why is there need for such wide frequency request? What exactly are you testing in the federal band?
- 3) Revise the purpose of operation statement. "Operations will be conducted indoors at various locations throughout the United States." In the transmitter tab, you're only requesting 5 fixed locations not throughout the United States. Nationwide request is typically for short term demo purpose and not long-term testing.

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of November 14, 2019 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
