Message:

Mr, Kennedy,

I verify that the frequency, output power, effective radiated power, tolerance, station class and emission designator are the same for the five new locations (Antenna 2 of 6 to Antenna 6 of 6) as those reported earlier for the Santa Monica, CA location (Antenna 1 of 6) and that I authorize you to amend the above referenced application to reflect the same.

This reply supersedes the previous reply to the e-mail with reference number 2488.
