Re: Application for Renewal/Extension of
Experimental Authorization, Call Sign K02XDO,
File Nos. 4104-EX-ML-94; 3608-EX-MR-93.

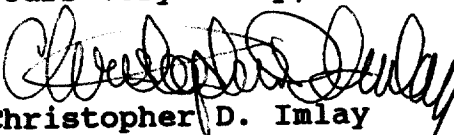

Dear Mr. Wright:

On behalf of our client, Broadcast Sports Technology (BST), located at 2135 Espey Court, #4, Crofton, MD, 21114, attached hereto are an original and one copy of FCC Form 442. Together with the requisite exhibits, this application seeks to renew or extend experimental authority previously granted by the Commission for the conduct of experiments related to the development and refinement of new RF cameras and other devices for video production during sporting events, particularly automobile and other vehicular races. A report on prior experiments and the results thereof, pursuant to the previously granted experimental authorization, are attached to this application. The previous authorization expires today, November 30, 1994. The application seeks extension of that authority for an additional two-year period.

The original of this application is being filed in Pittsburgh, together with the requisite filing fee in the amount of \$45.00, by check of this office payable to the Commission. Copies of the check and the FCC Form 159 are attached hereto as evidence of filing today.

Should any question arise concerning this application, kindly notify the undersigned counsel. Your review of this application is greatly appreciated by the undersigned.

Yours very truly,

Christopher D. Imlay

cc: Mr. John Porter
