Gentlemen:

Attached is an FCC Form 442 with Exhibit 1 applying for authorization to add two (2) additional land-based ship earth stations to Exxon Communication Company's existing radio license, KE2XMM, increasing the number of VIASAT Lynxx (202) units to twelve (12). The SES land-based terminals will be used at temporary locations for communications during the exploration for petroleum in remote areas not served by a common carrier.

Also attached is a copy of KE2XMM and Exxon's bank draft for \$45 in payment of the filing fees.

Please call Barbara Tyer at (713) 656-1827 if you have any questions or need additional information.

Very truly yours,

D E Newman
