---

Message:

We will not be conducting EMC testing in the 1780-1850MHz spectrum. We will just be transmitting for testing purposes throughout the duration of the STA. These test events will may range 1-14 days in length. The station will not be on 24/7 during any of these test events. In regard to the 2180-2200MHz band we will offset in order to avoid any conflict.
