Subject: Request for Info - File # 0727-EX-CN-2026

---

Message:

Hello, We submitted an email with a lot of this information regarding this application, to this FAA-DOD office that is being requested, back on 07/14/2026. I even spoke with somebody at that office, that day. Since then, this office is not picking up their calls or answering voice mails or responding in email about this project. I'm very much wondering that this is because of the new Safety Skies Act, and that this office is probably new, and being saturated with traffic with similar projects. What is our recourse, as the FCC OET is requesting that the approvals be received from this FAA-DoD office within 30 days? It's already been 15 days. Can the FCC OET extend this, if this FAA-DoD office takes longer? Thanks.
