Subject:

Request for Info - File #0082-EX-ML-2006

Message:

Doug,

Sorry for the mistake, my technical POC has given me a new table in which has the corrected frequency.

Hopefully these revised Mobile changes will be acceptable.

Frequency	Station	Emission	Authorized	Frequency
Class	Designator	Power	Tolerance (+/-)	

Down	14550 MHz	MO	20M0F9W	630W(ERP)	0.001%

Down	14600 MHz	MO	20M0F9W	630W(ERP)	0.001%
------	-----------	----	---------	-----------	--------

Up	15200 MHz	FX	1M00F9W	63kW(ERP)	0.001%
----	-----------	----	---------	-----------	--------

Up	15250 MHz	FX	1M00F9W	63kW(ERP)	0.001%
----	-----------	----	---------	-----------	--------

Thanks Naomi
