RE: Experimental Radio Station KM2XNP
FCC File No. 0266-EX-MR-87

Gentlemen:

On July 28, 1992, General Electric Company ("GE") submitted an application to reinstate its license for the above referenced Experimental Radio Station. At that time GE also requested Special Temporary Operating Authority until such time as its application could be acted upon.

I understand that a second fee has been requested. Enclosed please find a check for \$35.00 and FCC form 155.

Thank you for your attention to this matter.

Very truly yours,

Enclosures: Form FCC 155 w/\$35.00 fee
