Subject: Renewal of FCC License No. WA2XFZ for the Operation of APX-113 on the
Antenna Range

Gentlemen:

Submitted herewith is a completed FCC Form 405, FCC Form 159 (Fee Remittance), FCC Form 702, and our check in the amount of \$90.00 as payment of the corresponding FCC fee due for renewal of the subject License which will expire on April 1, 1999. We have no record of having received from the FCC any "notice of expiration/application for renewal" of this License, as we understand it is the FCC's practice to do.

Please note that the subject License was originally issued in the name of Hazeltine Corporation, which formerly was a wholly-owned subsidiary of GEC-Marconi Hazeltine Corporation ("GMHC"). As explained in the enclosed notice letters, in April 1998, Hazeltine Corporation was merged into GMHC, and on January 1, 1999, GMHC changed its name to Marconi Aerospace Systems Inc.

Should you require any additional information regarding this application, please contact me as: phone 516-262-8201; fax 516-262-8166; E-mail "onders@hazeltine.com".

Very truly yours,

Edward A. Onders
Vice President,
Law and Contracts
