

FCC Form 442, Question 4 – Attachment
File No. 0014-EX-ST-2010

This program is in support of a cooperative effort between the FAA and the Miami-Dade Police Department (MDPD) to operate a Honeywell Micro Air Vehicle (MAV) for purposes of police surveillance and reconnaissance in the Miami-Dade area. Due to the proximity of these potential operations to local air traffic corridors in the Miami area, the FAA has requested a transponder type device be installed as required equipment on the MAV for operations in Miami. In order to provide engineering support, Honeywell will also need to operate this transponder device at Honeywell's test area to ensure proper MAV integration.

The following are POCs for this joint FAA/MDPD effort:

MDPD:
Jesus Ramirez, Lieutenant
Miami-Dade Police Department
Aviation Unit
1519 NW 79 Avenue
Miami, FL 33126
Phone: (305) 468-1207
Fax: (305) 468-1211
Email: jlr Ramirez@mdpd.com

Honeywell:
Erik Erben
Honeywell International Inc.
Systems Engineering
9201 San Mateo Blvd NE
Albuquerque, NM 87113-2227
Phone: (505) 828-5622
Email: erik.erben@honeywell.com
