In reference to demonstrating 1000 devices to potential customers, please be aware that if granted the experimental license would be for temporary development and demonstration purposes only and should not be used to install a permanent system.

Accordingly, please describe the long term objective of this experiment. For example, is it the intention of Input/Output to submit these devices for FCC approval? If so, when and under what rule part are these devices intended to be approved?

The items indicated above must be submitted before processing can continue on the above referenced application. Failure to provide the requested information within 30 days of March 15, 2005 may result in application dismissal pursuant to Section 5.67 and forfeiture of the filing fee pursuant to Section 1.1108.
