

FCC Form 405

Experimental License Renewal Application of
Liberty Cablevision of Puerto Rico, LLC

EXHIBIT 1

Form 405 File No. 0151-EX-CR-2020

Call sign: WK2XCQ

Overview

Liberty Cablevision of Puerto Rico, LLC (“LCPR”) files this application to request an extension of time under its existing authorization to conduct pre-commercial outdoor field trials in the 3550–3700 MHz Citizens Broadband Radio Service (“CBRS”) band. These field tests and related operations were originally authorized by the Commission through the experimental licenses issued to LCPR on April 22, 2019 under File No. 0142-EX-CN-2019 (for call sign WK2XCQ) and File No. 0082-EX-CN-2019 (for call sign WK2XAF).

LCPR seeks to continue the authorizations set forth in the above-cited license for a period of six additional months beyond the term of the current experimental license authorization, which expires on May 1. Accordingly, LCPR seeks such authorization to continue its testing and operations under the existing authorizations until November 1, 2020.

The field trials and testing will evaluate coverage, throughput, and mobility of equipment and facilities operating in the CBRS band to obtain data and advance LCPR’s understanding of the full potential of the technology and equipment utilized in these experimental operations. The field testing will also evaluate the performance of pre-commercial equipment in the CBRS band.

Requested Renewal Term

LCPR seeks to continue the authority granted by the Commission in the above-cited license for six additional months beyond the term of the current experimental license authorization, which expires on May 1. Accordingly, LCPR seeks such authorization to continue its testing and operations under the existing authorization until November 1, 2020.
