Re: Special Temporary Authorization Request
Call Sign: WA2XSX **File No.:** 0071-EX-ML-2001

We, the Lockheed Martin Corporation, are requesting a Special Temporary Authorization based on the technical parameters set forth in our existing authorization, **WA2XSX**, for operations at our facilities located in Cazenovia, NY and **Palm Beach, FL**.

The request is to extend the operational testing range of our systems being developed for the U.S. Navy, under contract, at our facilities located near Palm Beach, FL. We are requesting the range of operations to be doubled from **81 KMRA** to **162 KMRA**. This request is to allow us to meet requirements put forth under our contract with the U.S. Navy to demonstrate the progress in the development at intervals during the course of the contract. This extended range will only be used over the ocean and for a period to begin on or about **October 1st, 2002 and will proceed and end on or about November 15th, 2002**. All other technical and administrative data remains unchanged.

If you have any problems or questions, please contact the individual named on the original license application. Any administrative questions regarding this application, please feel free to call the undersigned on **(410) 682-2156**.

Very Truly Yours,

Claude E. Wells
