Message:

Here is the additional data requested.

The number converted to %. And all the power converted to Watts.

The Tx frequency range is 1626.5 to 1660.5 MHz. At 1626.5 MHz, 320 Hz =
> 0.000020%; at 1660.5 MHz, 320 Hz = 0.000019%.

>

> 20 Watts = 43.0 dBm

> $43.0 + 6.0 - 2.5 = 46.5$ dBm

> 46.5 dBm = 44.7 Watts

Let me know if this meets your needs.

Sincerely,

Terri Dempski LMSI Owego NY 607-751-4839
