**APPLICATION FOR AIRBORNE MICROWAVE DOWNLINK VIDEO
EXPERIMENTAL LICENSE**

The City of Los Angeles (The City) is submitting the attached application for an experimental radio license, FCC Form 442, authorized under Part 5 of the FCC rules. The City wishes to test the airborne microwave downlink video for Los Angeles Police and Fire tactical operations in the underutilized 2402 - 2448 MHz spectrum.

The following additional information is furnished with the enclosed application to satisfy the requirements of item "10" of Form 442:

Exhibit A – Description of proposed program of experimentation, equipment, theory of operation, and objectives sought.

Attachment 1 - Diagram of Proposed Airborne Video System.

Attachment 2 - Diagram of Existing Broadcast Network in Southern California

Should you have questions regarding this matter, please contact Apparjit Kaur, Communications Engineering Associate, at (213) 847-2399.

Tun Aung, Public Safety Telecommunications Manager
