

**MASSACHUSETTS INSTITUTE OF TECHNOLOGY
LINCOLN LABORATORY**

7 September 2021

TO: FCC OET
FROM: Dr. William F. Moulder, Technical Staff
SUBJECT: Description of Government Contracts Related to Experimental License Application

United States Air Force contract number FA8701-15-D-001 is the prime contract under which MIT Lincoln Laboratory operates.

Department of Homeland Security has funded MIT Lincoln Laboratory to develop experimental systems to improve security in surface transportation environments. The contract includes development of a low power microwave imaging radar for concealed threat detection, an effort which requires this experimental license.
