

Northeast Colorado Cellular d/b/a Viaero Wireless

Application for Experimental Authority To Undertake Testing in the EBS Band

Narrative Statement

Northeast Colorado Cellular d/b/a Viaero Wireless ("Viaero") seeks to continue testing in the 2.5 GHz Educational Broadband Service ("EBS") band, and to undertake limited market trials. Viaero is currently testing in the EBS band pursuant to an STA, File No. 1881-#X-ST-2019, Call Sign WP9XNE. Viaero is an established wireless telecommunications service provider, serving primarily rural areas of Colorado.

Viaero seeks to assess the propagation characteristics and real-world throughput of wireless operations in the EBS band.
