Re: **FCC Form 442 Application for Modification of the Experimental Radio
Service Authorization for Call Sign KA2XGP**

Dear Madam Secretary:

On behalf of Northrop Grumman Corporation ("NGC"), there is submitted herewith, on FCC Form 442, an application for modification of the experimental radio service authorization for Call Sign KA2XGP. NGC is requesting modification of its existing authorization to increase the maximum ERP from 100W to 1kW in order to improve the SNR of the antenna pattern measurements. In addition, the grant of this modification application will allow NGC to cancel the licenses for its experimental facilities authorized under Call Signs KQ2XAK and KA2XNO.

Also enclosed are a FCC Form 159 and a check made payable to the "Federal Communications Commission" in the amount of \$50.00 to cover the requisite filing fee.

Any questions concerning this filing may be directed to the undersigned.

Respectfully submitted,

John M. R. Kneuer
Attorney for Northrop Grumman Corporation
