Subject: Re: 0121-EX-RR-2005, WA2XNX

Gentlemen,

Per a conversation yesterday between John and myself, I have looked into the matter of FCC File # 0121-EX-RR-2005 (WA2XNX). I had a feeling this program was complete when talking with John, but I wanted to look into it more. After doing considerable looking on my part in both notes and e-mails I was not able to verify my thoughts, so I have contacted people at our Norwalk, Conn facility that did the testing here in Linthicum and PAX River. I found out that my thoughts were correct. The program is over and we (Northrop Grumman) no longer have a need for this particular Experimental License.

I would like to request that this renewal application be withdrawn. Sorry for the confusion in this matter.

Thank you,
