Subject: Re: 0142-EX-RR-2005

John,

Per our conversation of earlier today in regards to 0142-EX-RR-2005, please reduce the requested frequency from 2800-3100 MHz to 3000-3100 MHz. This change is requested for both station locations: Hanover and Linthicum.

As I had mentioned, this frequency change is due to a conversation that Tim Pawlowitz and Rod Fremd had about a year or two ago so as not to cause any interference with any other users in that frequency range.

Thanks for your help in this matter.

Regards,
