

March 1, 2007

OET Experimental Licensing:

QUALCOMM Incorporated ("QUALCOMM") hereby requests consideration for approval of its STA application 0097-EX-ST-2007 that was submitted on February 14, 2007.

The purpose of the STA is to support a demonstration of QUALCOMM's innovative MediaFLO technology at the annual meeting of QUALCOMM's stockholders, which will occur from 9am to 12pm on March 13th, 2007 at the Copley Symphony Hall in San Diego. At this important meeting, QUALCOMM executives will present information about the company and its new technologies and also showcase to the public the MediaFLO system that launched commercially today in various markets around the country other than San Diego. In several recent rulings, the Commission has found that the MediaFLO service is in the public interest and will be highly beneficial to the public. See Order, In the Matter of QUALCOMM Incorporated Petition for Declaratory Ruling, WT Docket No. 05-7, FCC 06-155, released October 13, 2006; Letter to Michael E. Carosella, DA 07-821, released Feb. 23, 2007; Letter to Michael E. Carosella, DA 07-820, released Feb. 23, 2007.

With respect to this STA request, although QUALCOMM owns channel 55 (716-722 MHz) in the San Diego area (call sign WPWU989), the spectrum is currently unavailable for a full commercial deployment due to usage by an incumbent TV station (call sign KFMB-DT). However, given that the proposed demonstration will use very low power within the Copley Symphony Hall and only for the limited duration of the stockholders meeting QUALCOMM was successful in obtaining consent for this demonstration from KFMB-DT. A signed letter of consent from KFMB-DT allowing QUALCOMM to temporarily transmit on channel 55 from March 12 to March 13th, 2007, has been attached to this expedite request letter and has also been uploaded as an attachment to the STA application.

By providing this letter of consent from KFMB-DT, QUALCOMM has proactively addressed the single technical issue posed by this STA request. QUALCOMM would be grateful for an expedited authorization of STA 0097-EX-ST-2007 before March 12th to ensure success of the critical annual Stockholder meeting.

Sincerely yours,

Dean Brenner
VP, Government Affairs.

San Diego, California 92111

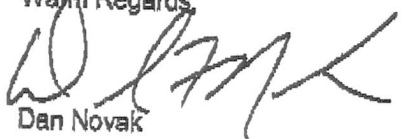

Dear Ed,

Per our conversation this afternoon, QUALCOMM has made arrangements to operate temporary equipment on Channel 55 in support of the QUALCOMM Shareholder's Meeting to be held on March 13, 2007, at the following location:

Copley Symphony Hall
750 B Street
San Diego, California

The set up and testing will begin at noon on March 12th. The event will take place from 8:00 am until 1:00 pm on March 13th. QUALCOMM has filed a Special Test Application (STA file 0097-EX-ST-2007) and this letter will be provided as support of the STA. Please indicate your concurrence with the above arrangements by signing and returning a copy of this letter via facsimile to 858-845-8333.

Warm Regards,

Dan Novak

Ed Trimble, General Manager,
