Subject: FCC File No. 0506-EX-ST-2008

Message:

Hi Ben,

I understand the FCC's preference against STA extensions and I originally had not anticipated needing STA 0180-EX-ST-2008 beyond October or I would have filed an experimental license.

After the DTV transition, it will no longer be necessary to obtain any experimental licenses for channel 55. If this STA is granted it will not be extended again past.

I can file an experimental license if that is preferable, but again, after Feb17th the license will no longer be required.

Best Regards,
John Forrester
