

Raytheon Missile Systems
Experimental License Renewal WD2XLE
File Number: 0236-EX-RR-2009

Exhibit 1 – Explanation of Continuing Experiment

Background: Raytheon Missile Systems uses this experimental license to provide differential GPS (D-GPS) correction signals to various programs to allow them to use precision positioning for testing for its DOD customers.

This exhibit is being filed to update the program point of contact to: Mark L. Taylor, 520-794-2024. Mr. Taylor is only the point of contact in the event that the system needs to be turned off; all other communications should be sent to Mr. Thomas J. Fagan, Spectrum Manager, Raytheon Missile Systems, 520-794-0227, tjfagan@raytheon.com.

In accordance with Special Condition 2 on the existing license, Mr. Fagan has requested coordination from the “area frequency coordinator of the Amateur Radio Service” by contacting the Amateur Radio Council of Arizona frequency coordinator Mr. Lance Halle.

For further information about this renewal request, please contact Anne Linton, 202-530-8583, alinton@wfsllc.biz or Tom Fagan, 520-794-0227, tjfagan@raytheon.com.
