

**SUBJECT: FCC Experimental License Request for Elta Systems Ltd
EL/M-2112 Ground Radar Sensor
FCC File Number 0039-EX-RR-2013**

January 28, 2013

Raytheon Network Centric Systems (Applicant) is developing and testing mobile surveillance systems based on commercial off-the-shelf radar (Elta Systems EL/M-2112 Ground Radar Sensor) and electro-optical/infrared cameras to be used for monitoring traffic along international border areas.

To accomplish that objective, Applicant respectfully requests a one year renewal of Experimental License WF2XZW.

The point of contact for interference matters is Jesse Ellisor, 210-844-2772.
