

**SUBJECT: Request for FCC Experimental License for Testing of  
Automatic Toll Collection Equipment  
FCC File Number 0165-EX-PL-2012**

Raytheon Network Centric Systems (NCS) (Applicant) has a requirement to perform intermittent factory testing of automatic toll collection equipment at the Raytheon facility in Fullerton, CA. This operation was previously authorized by FCC Experimental License WF2XNG, which was inadvertently allowed to expire on April 1, 2012.

Applicant requests a term of 24 months from date of grant. Further, Applicant recognizes that grant of the attached application would be conditioned upon non-interference to other radio stations licensed on these frequencies.

In the event of interference, the on-site point of contact is Vince Zeimis at 714-446-2259.

Applicant respectfully requests that the Commission process and grant this application as expeditiously as possible.
