Form 442 Processing Agent

Agent:

(up 8-1-94)

Attached is the application for the recovery of an Raytheon Electronic Systems (RES) expired FCC license KO2XBL. The Purpose and usage of the application is the same as the original and is outlined in Enclosure 2.

The submitted frequencies applied for are the actual frequencies approved license that has expired.

Hopefully this will assist you with your processing. If you have any questions or need further information, please give me call.
