Subject: Request for Info - File # 0130-EX-CM-2019

---

Message:

This modification adds one additional ground transmitter to the license. This transmitter is added as a backup command link to Hopper in addition to the ground station already listed in the original license. The coordinates for the additional transmitter are N 25 59 52 W 97 9 26. It will also be used to perform RF checks for the Hopper RF receiver while at the pad.
