---

Dear Proponent,

Your Frequency Coordination Request has been engineered by FAA Spectrum Engineering. TRK 200179 is assigned an FAA Coordination number NG T200184 which indicates FAA's concurrence. Please note that this does not constitute authority to transmit.

A formal application must be filed with the FCC, that includes reference to the above FAA Coordination number which is valid until 11/4/2020. If an extension is desired, please submit an inquiry via WebFCR for an extension. Your authority to transmit accordingly must be obtained from the FCC. FAA Spectrum has provided the following comment:

FAU Line: SPECIAL CONDITIONS: 1) THE TRANSMISSION POWER (ERP) MUST NOT EXCEED -20 DB  
2) THIS COORDINATION ONLY COVERS THE CENTER FREQUENCY 1030 MHZ 3) ANY RADIATION  
OUTSIDE OF THIS FREQUENCY MUST BE COORDINATED WITH THE FAA

The attached file contains a Summary Table of the key record parameters documented throughout the process. The following Revision Table outlines the attributes which were revised:

| Attribute | Revised Value |
|-----------|---------------|
| Frequency | M1030.0000    |

Thank You

FAA Spectrum Engineering
