Seattle, WA 98124-2207

DISMISSED-WITHOUT PREJUDICE

Dear Spectrum Management, MC 1K-105,

This refers to application, File No. 0389-EX-CN-2019, for an experimental authorization.

You are advised that the Commission is unable to grant your application for the facilities requested. The application is dismissed because NTIA objects to authorize the operation. The requested frequency band is for Aeronautical radio navigation to use for safety of flight. However, the website indicates the radar is used for drone intrusion detection and counter-UAS for the local airspace. Please submit the new application with the frequency band 16.2-17.3 GHz band.

Responses to this correspondence must contain the Reference number : 48506

Sincerely,

Anthony Serafini
Chief
Experimental Licensing Branch
