The Boeing Company

U.S. Spectrum Management and Electromagnetics

St. Louis Regional Office

5501 Phantom Drive MC S276-2101

Hazelwood, MO 63042-2443

314-563-5808

Purpose of Operation:

- The Boeing Company has been tasked to perform Support Equipment (SE) testing & SE delivery, in support of U.S. Army contract **FA8634-22-C-2705**. This testing is required to ensure the **Integrated Tester for Aircraft Survivability System (ITASS)**, does not negatively impact other critical equipment operating on the aircraft, while in use.

Test Description

- All testing will be performed on the ground, sweeping through specific frequencies, maintaining a dwell time of no longer than 10s per frequency, per transmission. Multiple sweeps may be required to ensure adequate testing, and/or retesting, has been achieved. This testing is required to be performed prior to delivery to the warfighter.

Timely Response Appreciated

Locations:

- **Location 1: Saint Louis, MO, Boeing Bldg 75**

Schedule:

- Testing will be performed between **November 2026** thru **May 2027**.
