Message:

Boeing only requested one band at 1710-1880 MHz.

Boeing is using a Blade antenna with 0 dB gain and they are assuming that there is no line loss, so the following is the Peak ERP for each band:

5150 - 5250 MHz	ERP 100mW
5250 - 5350 MHz	ERP 100mW
5725 - 5800 MHz	ERP 100mW

If you need any more information, please let me know.

Thanks,

Gerry
