Dear Secretary Dortch,

True Anomaly, Inc. (“True Anomaly”) is aware that in accordance with Resolution 88 of the International Telecommunication Union’s (“ITU”) Plenipotentiary Conference (Marrakech, 2002), and ITU Council Decision 482, as modified, cost-recovery fees will apply to satellite system filings received by the Radiocommunications Bureau after November 7, 1998. As a consequence, Commission applicants are responsible for any and all fees charged by the ITU to process their satellite system filings. True Anomaly hereby states that it is aware of this requirement and unconditionally accepts all cost recovery responsibilities associated with the ITU filings for the Jackal-0006 Mission. True Anomaly, Inc.
Jackal-0006 Cost Recovery

True Anomaly understands that it must remit payment of any resultant cost-recovery fee to the ITU by the due date specified in the ITU invoice, unless an appeal filed prior to the due date is pending with the ITU. True Anomaly fully understands that a license granted in reliance on such a commitment will be conditioned upon discharge of any such cost-recovery obligation. True Anomaly also acknowledges that should it have an overdue ITU cost-recovery fee and have no appeal pending with the ITU, the Commission may dismiss any application associated with that satellite system.

Sincerely,
