Subject: Request for Info - File # 0577-EX-CN-2020

Message:

As of February 5, the first version of our Space Cap has been completed and submitted with this application, our initial ODAR is also included and may require small changes once we get in our antenna and solar panels so that we can confirm their dimensions and materials, our IARU application was added as well because we are still waiting on a final response from the IARU, and we have also attached our NOAA application because we are waiting on the license from NOAA. As of January 25 we addressed all the comments NOAA suggested. Regards,
David
