

Subject: FAA Concurrence of Record TRK 261046, Project: UAS COMMUNICATION TEST

Dear donaldriscigno@gmail.com,

The FAA Spectrum Engineering Services has completed the review of your Frequency Coordination Request.

TRK 261046 is assigned an FAA Coordination number NG T261084 that indicates FAA's coordination that may or may not include operational limits/conditions as part of the requirement for FAA concurrence. The FAA Spectrum Engineering Services has provided the following comments:

COMMENTS: PLEASE BE AWARE THAT TEST SYSTEM IS NOT COMPATIBLE WITH THE CURRENT ALLOCATION. THE OPERATING FREQUENCY MUST BE ADJUSTED BEFORE THE SYSTEM CAN BE USED OPERATIONALLY.

Please note that this concurrence does not constitute authority to transmit. Your authority to transmit must be obtained from the FCC.

Please provide this concurrence notice to the FCC as part of your frequency application, to demonstrate completion of the FAA coordination process. The FAA Coordination number is only valid until 12/27/2026; if you need an extension, please submit an inquiry via WebFCR .

The attached file contains a Card 3 format with all technical and operational parameters; operations are required to be contained within these parameters for the FAA's concurrence to remain valid. If any of these parameters change, the license to transmit shall be re-coordinated with the FAA and updated with the FCC. A document that explains each field of the Card 3 format in plain text is attached.

The following Revision Table outlines key parameters of this coordination:

Attribute	Record Parameter
Serial Number	NG T261084
Frequency	M5141.5000
City	EMERADO
State	ND
Transmitter Radius	0001
Transmitter Longitude	0972051.38W
Receiver Latitude	475055.65N
Receiver Longitude	0972051.38W
Equipment Type	U, ,PD2M
Antenna Type	MONOPOLE

Flight Level	002
--------------	-----

Best regards,

FAA Spectrum Engineering Services
