PCS Experimental License Modification

Dear Mr. Wright:

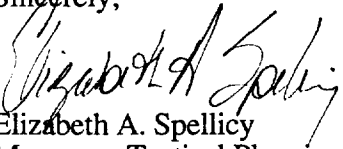

Attached in duplicate is FCC Form 442 and related exhibits. This application seeks to modify an existing Experimental Authorization to conduct a Personal Communications Service (PCS) wireless access trial in Boulder, Colorado.

U S WEST Communications, Inc. ("USW/C") seeks to modify the existing authorization to include frequencies from 2400 to 2483.5 MHz and 5725 - 5850 MHz. In addition, USW/C is requesting a power increase from 100 watts to 1000 watts ERP in the 1850 to 1990 MHz band. This modification is consistent with recently established FCC guidelines. All other parameters of the Experimental License will remain the same.

Also attached is FCC form 155 and a check for the amount of \$45.00 to cover the required filing fee.

Should you have any questions or require additional information, please call me on (303) 932-4901.

Sincerely,

Elizabeth A. Spellicy
Manager - Tactical Planning
