Subject: Request for Info - File # 0736-EX-CN-2026

---

Message:

We currently operate seismic monitoring instruments in Utah, Wyoming, Idaho and Montana. Our mandate covers earthquake monitoring for the Utah region and the area in/around Yellowstone National Park. We may want to experiment with radio communications in these areas since the terrain and operating parameters vary. Hence the inclusion of the areas indicated in the license request. We have no plans or needs to move outside the bounds already indicated.
