

EXHIBIT 1

VEGA wishes to operate stations in the Experimental Radio Service for the following purposes:

- 1. Technical demonstrations of wireless microphones and techniques for receiving signals in multi-path environments.**
- 2. Demonstration of wireless microphones to persons engaged in the business of selling this equipment.**
- 3. Testing of wireless microphones in connection with production or type approval.**
- 4. Development of radio technique, equipment, operational data and engineering data relating to the use of wireless microphones.**
