• Only adults should install and replace batteries. Do not recharge non-rechargeable batteries.
• Remove dead or exhausted batteries.
• Insert batteries correctly. Match positive and negative signs.
• The supply terminals are not to be short circuited.
• Do not use rechargeable batteries.
• Do not mix alkaline, standard (carbon-zinc), or rechargeable (nickel-cadmium) batteries.
• Do not mix old and new batteries.
• Only the batteries of the same or equivalent type recommended to be used.
• Do not dispose of batteries in a fire; they may explode. Dispose of batteries safely.

ATTENTION ADULTS-TO REPLACE BATTERIES
The SpyX Wrist Talkies Walkie-talkie function requires Three 357 (LR44) button-cell per walkie-talkie unit (6 batteries in total)

1. Figure 3 On the Back of the Watch, Loosen the Philips-head screws on the Battery Door and remove.

2. Install new battery into Battery Compartment as shown in Figure 3.

3. Replace and screw the battery door onto Back of Watch.

NOTE: The SpyX Wrist Talkies watch module uses a separate battery = one 384 (LR41) per unit.

The SpyX Wrist Talkies Watch Module requires One 384 (LR41) button cell battery per walkie-talkie unit (2 LR41 batteries in total)

1. Figure 4 On the Back of the Watch, First loosen and remove the screw on the Battery Door and remove the 3 LR44 Batteries to access the 4th screw on the back Module. Then Loosen all 4 of these remaining screws as shown in Fig 4.

2. Lift out the Back Module.

3. Remove the 2 small Philips screws on the silver flap and then Lift up the flap to access the compartment for the LR41 Battery

4. Install new battery into Battery Compartment with positive side up as shown.

5. Press the silver flap back in place and reinsert and tighten the 2 small screws

6. Align and Replace the Back Module and screw in the 4 Phillips screws to secure the Back Module in Place.

7. Replace the 3 LR44 batteries and then the Battery Door. Tighten the screws on the Battery door.

ISEDC Warning

This device complies with Innovation, Science and Economic Development Canada License exempt RSS standard(s).
Operation is subject to the following two conditions:
(1) this device may not cause harmful interference, and (2) this device must accept any interference received,
including interference that may cause undesired operation of the device.
Le présent appareil est conforme aux CNR d' Innovation, Sciences et Développement économique
Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes :
(1) l'appareil nedoit pas produire de brouillage, et
(2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi,
même si le brouillage est susceptible d'en compromettre le fonctionnement.
The device is compliance with RF exposure guidelines, users can obtain Canadian information on RF exposure and compliance.
Le présent appareil est conforme Après examen de ce matériel aux conformité ou aux limites d'intensité de champ RF,
les utilisateurs peuvent sur l'exposition aux radiofréquences et compliance d'acquérir les informations correspondantes.

FCC Statement: This device complies with part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment. **NOTE:** This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures: • Reorient or relocate the receiving antenna. • Increase the separation between the equipment and receiver. • Connect the equipment into an outlet on a circuit different from that to which the receiver is connected. • Consult the dealer or an experienced radio/TV technician for help.
