Model:A100  
Brand: POLAROID

## 1 Welcome

Mobile Phone using the A100. YourA100 is packaged with the following state of the art features:

- VGA Camera
- 2.4 Inch screen
- Audio Player
- FM Radio
- King Movie
- Video and FM Recording
- Dual SIM (GSM + GSM)
- T-Flash Card support (up to 8 GB)
- Hindi Language Support

### **Important:**

1. Please read the contents of this manual to fully utilize the features of this phone.
2. Please read the Guidelines section provided with this Reference guide.

## 2 Know Your Phone

### 2.1 Keys and Parts

Important keys and parts are listed here for you to use the phone better.

1. Left Key

2. Right Key

3. Dial Key

4. End Key

5. Navigation Key

6. OK Key

7. Keypad

8. Receiver

9. Led

10. Hands-free socket

11. USB Socket

12. Speaker

13. Camera Lens

14. GOOGLE+

### 2.2 Insert Sim Card

1. Switch off the phone and remove the rear cover and the battery.
2. Insert the Sim card into the slot.
3. Finally, insert the battery and the rear cover of the mobile phone.

## 2.3 Insert Memory Card

1. Switch off the phone and remove the rear cover and the battery.
2. Insert the memory card into the slot.
3. Finally, insert the battery and the rear cover of the mobile phone.

Note: Use only compatible memory cards approved by A100. Incompatible cards may damage the slot or corrupt the data stored in the card.

## 3 Basic Operations

### 3.1 Switch Phone ON/OFF

To switch ON/OFF your phone, press and hold the **End key** for a few seconds.

### 3.2 Unlock the phone

If you do not use the phone for a while, the screen is replaced with a locked screen.

1. Press any key to activate the screen.
2. Press **Left** key, and then press \* key.

## 3.3 Make a call

You can make a call in the following ways:

- Enter the desired number in standby mode and press the **Call key** to make the call.
- Go to **Menu > Phonebook** and then select and dial the desired number.
- Just press the **Call key** to dial the contacts listed in Call logs.
- You can also dial a contact from the messages.

# 4 Notable Features

## 4.1 Secure your Phone

### **Menu>Organizer > Folder Lock > Phone Locked**

Let you lock/unlock your phone via a security password which you can change anytime.

The default security code to unlock the phone is **1234**.

Note: After you activate the phone lock, you would be asked for a password when you power on your phone next time.

## 4.2 Blacklist

**Menu > Settings > Security > Blacklist**

Blacklist undesired SMS senders and caller so that you do not receive SMS and calling from them.

# 5 Call History

## 5.1 Call History

**Menu > Call History**

Tip: Directly access the call logs of by pressing the **Call** key in idle mode.

The Call log lists the calls you have recently dialed, received, missed for SIM1 and SIM 2.

Press the Left/right navigation keys to access various call logs and work on the call history.

# 6 Phone book

Your phonebook stores all your saved contacts for anytime use. Your phonebook data can be stored in your SIM card or your phone memory. You can manage your contacts from here.

**Menu > Phone book**

## 6.1 Create Contact

Menu > Contacts > Left Key > New

## 6.2 SMS

Menu > Contacts > Left Key>SMS

## 6.3 Call

Menu > Contacts > Left Key>Call

## 6.4 Delete

Menu > Contacts > Left Key>Delete

## 6.5 Delete multiple

Menu > Contacts > Left Key> Delete multiple

In the Contacts list, select the entry you want to delete.

## 6.6 Move contacts

Menu > Contacts > Left Key > Move

In the Contacts list, select the entry you want to move.

## 6.7 Add to Blocklist

Menu > Contacts > Left Key > Add to Blocklist

Blocklist undesired SMS senders and caller so that you do not receive

SMS and calling from them.

## 6.8 Add to Whitelist

## 6.9 Import/Export Contacts

**Menu > Contacts > Left Key > Import/Export**

You can copy, Import or Export contacts entries stored in the SIM card to the phone memory and vice-versa.

## 6.10 Send vCard

**Menu > Contacts > Left Key > Send vCard**

## 6.11 Others

**Speed dial**

**Menu > Contacts > Left Key > Others > Speed dial**

Set speed dial and view memory status.

**Memory status**

**Menu > Contacts > Left Key > contact settings Others > Memory status**

Check the memory status of SIM, and Phone.

## 6.12 Most used

**Menu > Contacts > Most used**

View the contacts that most used.

## 6.13 Groups

### Menu > Contacts > Groups

Press the Left/Right navigation key to access the Group tab. Set up a list of numbers with similar preferences such as ringtone, profile etc.

## 7 Audio player

The phone comes with an inbuilt audio player that plays all your favorite songs stored in the phone memory or memory card.

- While in music mode, press the Left key to choose various music options
- **Adjust Volume:** Press \* and # keys to adjust volume

## 8 Camera

Press the left key in camera mode to choose various settings

Shortcut keys: Press the number keys on the phone's keypad to choose various settings.

## 9 Messages

### 9.1 Write message

**Menu > Messages > Write message > New SMS**

You can compose and send SMS . Pressing the **Left Key** during/after composing the message gives you a host of messaging features.

### 9.2 Use message Templates

**Menu > Messages > Templates**

Enter into preset message templates and use them. These preset templates can save you time if the theme of your message is the same as those existing in the template.

### 9.3 Voice mail server

**Menu > Messages > Voice mail server**

You can activate voicemail service to redirect your incoming calls (based on your call settings) to a voicemail server and retrieve them later via SMS alerts.

To divert incoming calls to a voicemail server, go to Settings>Phone tab > Call Divert> Voice> (choose the desired call divert condition)> Activate> Phone Number/Voicemail Number.

## 9.4 Settings

**Menu > Messages > Options>Settings**

You can set your desired parameters for SMS, push message and Others.

## 9.5 Message capacity

**Menu > Messages >Options> Message capacity**

View the memory status of your SMS .

# 10 Multimedia

## 10.1 Video Recorder

**Menu > Multimedia > Video Recorder**

Press the left key in camera mode to choose various settings

Shortcut keys: Press the number keys on the phone's keypad to choose various settings.

## 10.2 Video Player

**Menu > Multimedia > Video Player**

Let you play videos stored in your phone or memory card.

Press 2 key while playing a video to change the display mode.

## 10.3 FM Radio

### Menu > Multimedia > FM radio

Your phone comes with an FM radio to let you listen to FM channels.

- Go to Options> Search Channels> Auto Search to fill up the channels.
- Press the number keys on your keypad in accordance to the channel list.
- Press OK key to start/stop the radio.
- Press the Up or Down key to increase/decrease the volume.
- Press the Left key for various radio options.

## 10.4 Images viewer

### Menu > Multimedia > Images viewer

Let you to view your saved images. You can also send the images via MMS or Bluetooth or use it as contact icon or wallpaper, etc.

## 10.5 Sound Recorder

### Menu > Multimedia > Sound recorder

# User Guide

---

You can record surrounding sounds using this feature.

## 11 File Manager

### 11.1 File Manager

**Menu > File Manager**

To manage the space of phone or memory card.

## 12 Game

### 12.1 Bubble Bash 2

**Menu >Game>Bubble Bash 2**

### 12.2 Ninja Up

**Menu >Game>Ninja Up**

### 12.3 Sky Gift

**Menu >Game>Sky Gift**

### 12.4 Danger Dash

Menu > Games > Danger Dash

### 12.5 Sokoban

Menu > Games > Danger Dash

### 12.6 Snake

Menu > Games > Snake

T Your devices is supported Snake to take your free time.

### 12.7 Tetris

Menu > Games > Tetris

## 13 Organizer

### 13.1 Bluetooth

Menu > Organizer > bluetooth

## 13.2 Calendar

**Menu > Organizer >calendar**

To arrange your journey according to calendar.

## 13.3 Alarm

**Menu > Organizer >Alarm**

To use the alarm service available with your mobile phone.

## 13.4 World Clock

**Menu > Organizer > World Clock**

## 13.5 Torch

**Menu > Organizer > Torch**

To turn on/off FlashLight.

## 13.6 Calculator

**Menu > Organizer > Calculator**

To provide a calculator with 4 basic functions to facilitate simple calculations.

### 13.7 Unit Converter

### 13.8 Stopwatch

Menu > Organizer > Stopwatch

### 13.9 Clock

Menu > Organizer > Clock

Set up time, time will have ring tone hint

### 13.10 Folder Lock

Menu > Organizer > Folder Lock

### 13.11 SIM toolkit

Menu > Organizer > SIM tool kit

## 14 Settings

Choose various preferences to customize your handset according to your

requirements. You can set:

- Phone Settings
- Display
- Security
- Call settings
- Connections

## 15 Services

### 15.1 Internet

Menu > Services>Internet

## 16 User Profile

Menu > User Profile

## 17 Health and Safety Precautions

Please read these simple guidelines. Not following them may be dangerous or illegal.

**SAR Compliance**

# User Guide

---

- Your phone is designed not to exceed the limits of emission of radio waves recommended by international guidelines.
- SAR (specific absorption rate) is the measurement of body-absorbed RF quantity when the phone is in use. SAR value is ascertained according to the highest RF level generated during laboratory tests.
- The SAR value of the phone may depend on factors such as proximity to the network tower, use of accessories or other accessories.

## **SAR Recommendations**

- Use a wireless hands-free system (headphone, headset) with a low power Bluetooth emitter.
- Please keep your calls short and use SMS whenever more convenient. This advice applies especially to children, adolescents and pregnant women
- Prefer to use your cell phone when the signal quality is good.
- People having active medical implants should preferably keep the cell phone at least 10 mm away from the implant.
- Maintain a preferable distance of 10 mm from the device.

## **Safe Driving**

- Do not use the phone while driving. When you have to use the phone, please use the personal hands-free kit.
- Please do not put the phone onto any passenger seat or any place

# User Guide

---

from which it may fall down in case of vehicular collision or emergency braking.

## During Flight

- Flight is influenced by interference caused by the phone. It is illegal to use a phone on the airplane. Please turn off your phone during a flight.

## In Hospitals

- Your Phone's radio waves may interfere with the functioning of inadequately shielded medical devices. Consult a physician or the manufacturer of the medical device to determine whether they are adequately shielded from external Radio Frequency. Switch off your device when regulations posted instruct you to do so.
- To avoid potential interference with implanted medical devices such as a pacemaker or cardioverter defibrillator:
- Always keep your phone at least 15.3 centimeters (6 inches) from the medical device.
- Do not carry the wireless device in a breast pocket.
- Turn off the phone if there is any reason to suspect that interference is taking place.
- Follow the manufacturer directions for the implanted medical device.
- If you have any questions about using your wireless device with an implanted medical device, consult your health care provider.

## Unsafe Areas

- Please turn off your phone when you are close to a gas station or in the vicinity of any place where fuel and chemical preparations, or any other dangerous goods are stored.

## 18 Taking Care of Your Device

Your device is a product of superior design and craftsmanship and should be handled with care: The following suggestions will help you protect your phone:

- Keep the device dry. Precipitation, humidity, and all types of liquids or moisture can contain minerals that will rust electronic circuits. If your device does get wet, remove the battery without turning on the device, wipe it with a dry cloth and take it the service center.
- Do not store the device in high or cold temperature. High temperatures can shorten the life of electronic devices and damage batteries.
- Do not use or store the device in dusty, dirty areas. Its moving parts and electronic components can be damaged.
- Do not attempt to open the device other than as instructed in this guide. Repairing this phone by yourself other than our authorized service agents/centers goes against the warranty rules.

# User Guide

---

- Do not drop, knock, or shake the device. Rough handling can break internal circuit boards and fine mechanics.
- Do not use harsh chemicals, cleaning solvents, or strong detergents to clean the device. Only use a soft, clean, dry cloth to clean the surface of the device.
- Do not store your device near magnetic fields or allow your device to come in contact with magnetic fields for extended period of time.

## **Battery Recommendations:**

- Please put the battery in a cool and well-ventilated place out of direct sunlight. We recommend you to charge the battery at room temperature range.
- Batteries have life cycles. If the time that the battery powers equipment becomes much shorter than usual, the battery life is at an end. Replace the battery with a new battery of the same make and specification.
- Do not discard the battery with household trash. Please dispose of used battery according to your local environmental laws and guidelines.
- Use manufacturer approved batteries, chargers, accessories and supplies. A100 will not be held responsible for user's safety when using unapproved accessories or supplies.

# User Guide

---

## Recycle Your Handset

The WEEE logo (shown at the left) appears on the product (battery, handset, and charger) to indicate that this product must not be disposed off or dumped with your other household wastes. You are liable to dispose of all your electronic or electrical waste equipment by relocating over to the specified collection point for recycling. of such hazardous waste.

Specified collection points for recycling of such hazardous waste. Collection and proper recovery of your electronic waste equipments at the time of disposal will allow us to help preserve the environment. Recycling of the electronic waste equipment will ensure safety of human health and environment. For more information on best practices for disposal of electronic and electrical waste, please visit to our web site: [www.micromaxinfo.com/weee.php](http://www.micromaxinfo.com/weee.php).

## **FCC Warning**

This device complies with part 15 of the FCC Rules. Operation is subject to the condition that this device does not cause harmful interference.

Any Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

Note: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.

# User Guide

---

- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

## **Specific Absorption Rate (SAR) information:**

This Mobile Phone meets the government's requirements for exposure to radio waves. The guidelines are based on standards that were developed by independent scientific organizations through periodic and thorough evaluation of scientific studies. The standards include a substantial safety margin designed to assure the safety of all persons regardless of age or health.

## **FCC RF Exposure Information and Statement**

The SAR limit of USA (FCC) is 1.6 W/kg averaged over one gram of tissue. Device types: Mobile Phone (FCC ID: 2ABV4-A100) has also been tested against this SAR limit. The highest SAR value reported under this standard during product certification for use at the ear is 0.667W/kg and when properly worn on the body is 0.988W/kg. This device was tested for typical body-worn operations with the back of the handset kept 10mm from the body. To maintain compliance with FCC RF exposure requirements, use accessories that maintain a 10mm separation distance between the user's body and the back of the handset. The use of belt clips, holsters and similar accessories should not contain metallic

# User Guide

---

components in its assembly. The use of accessories that do not satisfy these requirements may not comply with FCC RF exposure requirements, and should be avoided.

## **Body-worn Operation**

This device was tested for typical body-worn operations. To comply with RF exposure requirements, a minimum separation distance of 10mm must be maintained between the user's body and the handset, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components. Body-worn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.

# User Guide

---

## **IC Warning**

This device complies with Industry Canada licence-exempt RSS standard(s). Operation is subject to the following two conditions: (1) This device may not cause interference, and (2) This device must accept any interference, including interference that may cause undesired operation of the device.

## **RF Exposure Information and Statement**

The SAR limit of USA is 1.6 W/kg averaged over one gram of tissue. Device types: Mobile Phone (IC: 12711A-A100) has also been tested against this SAR limit. The highest SAR value reported under this standard during product certification for use at the ear is 0.667W/kg and when properly worn on the body is 0.988W/kg. This device was tested for typical body-worn operations with the back of the handset kept 10mm from the body. To maintain compliance with IC RF exposure requirements, use accessories that maintain a 10mm separation distance between the user's body and the back of the handset. The use of belt clips, holsters and similar accessories should not contain metallic components in its assembly. The use of accessories that do not satisfy these requirements may not comply with IC RF exposure requirements, and should be avoided.

# User Guide

## **Body-worn Operation**

This device was tested for typical body-worn operations. To comply with RF exposure requirements, a minimum separation distance of 10mm must be maintained between the user's body and the handset, including the antenna. Third-party belt-clips, holsters, and similar accessories used by this device should not contain any metallic components. Body-worn accessories that do not meet these requirements may not comply with RF exposure requirements and should be avoided. Use only the supplied or an approved antenna.

# User Guide

---

Le présent appareil est conforme aux CNR d'Industrie Canada applicables aux appareils radio exempts de licence. L'exploitation est autorisée aux deux conditions suivantes:

(1) l'appareil ne doit pas produire de brouillage, et

(2) l'utilisateur de l'appareil doit accepter tout brouillage radioélectrique subi, même si le brouillage est susceptible d'en compromettre le fonctionnement

## **RF exposition Information et Déclaration**

La limite SAR des Etats-Unis est de 1,6 W / kg en moyenne par gramme de tissu. Types d'appareil: Mobile Phone (IC: 12711A-A100) a également été testé contre ces valeurs. La valeur SAR la plus élevée déclarée en vertu de cette norme lors de la certification de produit pour une utilisation à l'oreille est 0.667W / kg et lorsqu'il est correctement porté sur le corps est 0.988W / kg. Ce dispositif a été testé pour les opérations typiques portés sur le corps avec le dos du combiné gardé 10mm du corps. Afin de maintenir la conformité aux exigences de la IC, utilisez des accessoires qui maintiennent une distance de séparation 10mm entre le corps de l'utilisateur et le dos du combiné. L'utilisation de pinces de ceinture, étuis et accessoires similaires ne doivent pas contenir de composants métalliques dans son ensemble. L'utilisation d'accessoires qui ne satisfont pas à ces exigences ne peuvent pas se conformer aux exigences de la IC, et devrait être évitée.

## **Porté au corps Opération**

Ce dispositif a été testé pour les opérations typiques portés sur le corps. Pour se conformer aux exigences d'exposition aux radiofréquences, une distance de séparation minimale de 10mm doit être maintenue entre le corps de l'utilisateur et le combiné, y compris l'antenne. Tiers pinces de ceinture, étuis et autres accessoires similaires utilisés par ce dispositif ne doit pas contenir de composants métalliques. accessoires qui ne répondent pas à ces exigences peut ne pas se conformer aux exigences d'exposition RF et doit être évité Body-porté. Utilisez uniquement l'antenne fournie ou une approbation.
