A photograph of a blue printed circuit board (PCB) with various electronic components and a ruler for scale. The PCB is rectangular and features a complex layout of copper traces. Key components include a USB-A connector on the left edge, a micro-USB connector on the top edge, and a long edge connector with numerous pins on the right edge. There are several integrated circuits (chips) and smaller components like resistors and capacitors. Two circular holes are visible on the board. A black ruler with white markings is placed vertically to the left of the PCB, showing measurements in millimeters and centimeters. The ruler indicates the PCB is approximately 100 mm wide and 60 mm high. The background is a solid blue surface.
