

The photographs of the circuit board (Internal Board Photos - RF-7800W-RPxxx.pdf) may make it difficult to determine which parts are which. In order to determine what a particular part is in a photograph:

1. Refer to the component placement drawings (Board Layout - RF-7800W-RPxxx.pdf) to obtain the part reference designator.
2. Search the parts list (Parts_List - RF-7800W-RPxxx.pdf) for that reference designator (Ref Des).
