Attestation

We, **Honeywell International Inc**, (Address: 9680 Old Bailes Rd. Fort Mill, SC 29707 United States), attest the followings for our device FCC ID: HD5-CK67X1N.

- a) This device will only associate and connect with a low-power indoor Access Point, subordinate device, or standard access point and never directly link to other client devices.
- b) This device will always initiate transmission under the control of a low-power indoor AP, subordinate, or standard AP, except for brief communications before joining a network. These quick messages will only occur if the client has detected an indoor AP, subordinate, or standard access point operating on a channel. These brief messages will have a time-out mechanism such that it will not continually repeat the request if it does not receive a response from an AP.
- c) This device when associated and connected with a low-power indoor access point, subordinate or standard access point device, will operate at a power lower as advertised by the indoor access point, subordinate, or standard access point (In addition to the attestation testing is required):
 - i. lower or equal to the power advertised by the low-power indoor access point or subordinate and never above the maximum output power allowed by the FCC grant for clients associated with indoor clients or subordinates.
 - ii. lower than 6 dB below the power of the standard access point advertised.
- d) We acknowledging the device is prohibited for control of or communications with unmanned aircraft systems, including drones.
