Subject DFS Indoor Only use Attestation Statement

Reference : FCC ID: LDK102073
EA738649

In reference to the FCC guidance on certifications for Part 15.407 devices operating in the 5150-5250 and 5470 -5725MHZ band requiring indoor operation only, Cisco affirms that the above product will be marketed for indoor operations only.

The product does not operate in the 5600-5650MHz frequency range and the channels cannot be accessed by the user.

Cisco will provide proper warning in the product manual and enclosed document stating to the customer the following information.

This device operates in the 5150-5250MHz and 5470-5725MHz bands and is therefore restricted to indoor operation only per FCC guidance.

Best Regards,
