I have received your short term confidentiality request letter for specific information to be held confidential until 6/1/2012. You also acknowledged that non-confidential information was publicly available on the FCC website from the date of initial grant (4/27) to the date of STC request (5/1).

Since there are several files in each of the "document" you listed, please confirm all files in the specified exhibit type are requested to be held short-term confidential. If this is not the case, please provide exact file names.

I confirm that all files in the specified exhibit type are requested to be held short-term

The last item on the list, Product literature or description, does not have any exhibit or file which fits that description. Please clarify.

Product literature or description would be our User Manual/Hardware Installation Guide in this case.

Best Regards,
