Re: FCC ID LDKTG2050: Request for Modular Transmitter Approval

To Whom It May Concern,

Cisco Systems Inc hereby request Modular Transmitter Approval for the above listed FCC submittal. In support of this request Cisco Systems makes the following declarations.

1 The Modular Transmitter has it own RF shielding and does not rely the shielding of the device into which it is installed as demonstrated by complying with the limits in part 15 tested Independant of Host in an open chassis host system

2 The Modular Transmitter has buffered modulation/data inputs and will comply with Part 15 requirements under conditions of excessive data rates or over-modulation.

3 The Modular Transmitter has its own power supply regulation and will comply with the Part 15 requirements regardless of the design of the power circuitry of the host device that it is installed in.

5 The Modular Transmitter was tested as a stand-alone module in an open chassis demonstrating that the Transmitter complies with limits in Part 15 Independant of the Host System.

6 The Modular Transmitter will be labeled with it own FCC ID number and the host system the module is installed in will also display the FCC ID on its labeling.

7 The Modular Transmitter complies with the operating rules and limits of Part 15.247. and 15.407

8 The Modular Transmitter complies with all applicable RF Exposure requirements.
