Application Examiner  
Reviewing Engineer

Re: Request for confidentiality, made pursuant to 47 CFR 0.459 of FCC Rules

Applicant: Colubris Networks, Inc.  
FCC ID: RTP-55010016-2

To whom it may concern,  
Request is hereby submitted Colubris Networks, Inc., to withhold from public review certain portions of the application for equipment certification for the referenced FCC identifier. In particular, the following sections of the application and report are requested to be kept confidential:

- Schematics
- Detailed Block diagrams
- Detailed Operational/Functional Description
- Internal photos

Rationale for request for confidentiality:

Colubris Networks wishes to keep these items confidential to maintain a competitive advantage in the marketplace.

Confidentiality for the internal photographs is requested based on professional installation of the equipment; users will not have access to internal parts. The authenticated operator or installer must supply a username and a password in order to gain access to configuration pages. Wireless LAN users do not access the configuration interface. If they try to, same as for the operator or installer, they get to a login page where they must supply a proper username and password in order to gain access to the configuration pages. Authenticated operators or installers are the people responsible to operate and install the equipment. They may be hired or contracted by the network/enterprise owner or operator.

The \$145 fee for confidentiality has been submitted along with the fee for certification. If you have questions or need further information, please contact the undersigned.

Sincerely,

A handwritten signature in black ink that reads "Claude Robitaille".

Claude Robitaille
