

# Wireless Mouse User Manual

## Thank you for purchasing the ATake Wireless Laser Mouse.

Combining a modern design with advanced performance, the ATake Wireless Laser Mouse features an push-button that instantly shifts resolution (800/1600 dpi) to suit a wide range of applications. The auto power management and an on/off switch are designed to help maintain proper battery levels.

The easy-to-follow instructions in this manual help make installation of the mouse quick and simple, so you'll also soon be enjoying the benefits of these additional features:

- 2.4 GHz RF technology offers wireless freedom with effective range up to 10m
- Compact size, ergonomic shape and no-slip texture provide secure grip
- Low-friction base smoothly glides over work surfaces
- Plug and Play installation — Windows and Mac compatible
- One-Year Limited Warranty

## INSTALLATION/SETUP

### Batteries

On the underside of the mouse, push the battery compartment cover release in and remove the battery compartment cover. Insert the two AAA batteries, matching the polarity indicators on the inside of the compartment. Replace the cover, pressing gently till it clicks in place.

### DPI (Resolution) Switch

Push the button on top of the mouse to shift resolution between 800 and 1600 dpi to suit a wide range of applications.

## OPERATION

- Operate the mouse within 10 m
- Place the mouse on a white or light-colored surface for optimal performance.
- When the mouse is not in use, set the power switch to Off. If the mouse will not be used for an extended period of time or if you transport the device outdoors, it's best to remove the batteries.
- The mouse automatically enters a sleep mode after a period of inactivity to save power. Press any key or scroll to wake it.
- Laser synchronization is automatic: No settings are necessary.

## SPECIFICATIONS

### Standards and Certifications

- FCC
- CE

- USB nano receiver: 19 x 6.4 x 14.8 mm

### Environmental

- Operational temperature: -5 - 40°C
- Storage temperature: -15 - 60°C
- Working humidity: <90%
- Electrical: 3 V <3 mA

### Package Contents

- ATake Wireless Laser Mouse
- 2 AAA alkaline batteries
- User manual

## FCC STATEMENT

1. This device complies with Part 15 of the FCC Rules.

Operation is subject to the following two conditions:

(1) This device may not cause harmful interference, and

(2) This device must accept any interference received, including interference that may cause undesired operation.

2. Changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate the equipment.

NOTE: This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation. If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one or more of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.
