Re: Renewal request for SES-STA-20250910-00651

Dear Ms. Dortch,

Pursuant to Section 25.120 and 1.62 of the Commission's Rules, ATLAS Space Operations, Inc (ATLAS) requests Special Temporary Authority (STA) for an additional one hundred-eighty (180) days, or until a fixed license is granted, commencing upon grant for the operation of our satellite earth station in Dededo, GU (call sign E190037) to communicate with the York Proliferated Warfighter Space Architecture (PWSA) Tranche 1 Transport Layer constellation (common name T1TL). The SES-STA-20250910-00651 grant is set to expire on July 4, 2026.

This request is of a temporary nature to cover the period of time until the pending SES-MOD-20250715-00850 is acted on which includes this point of communication.

Operation of the Dededo, Guam earth station will enable frequent, predictable contact with the spacecraft to support potential collision avoidance, perform orbit maintenance, and conduct payload operations.

If approved, communications will be on a secondary non-interference basis and we will discontinue operation in the event of any reported interference.

24 hour contact information for the Dededo earth station is as follows: +1 231 598 6184 x222
ops@atlasspace.com

Clint Schlegel, +1 231 631 5983, clint.schlegel@atlasspace.com

Respectfully Submitted,

Clint Schlegel

Clint Schlegel
Head of Licensing and Regulatory
ATLAS Space Operations

Enclosure: 1) SES-STA-20250910-00651 grant

ATTACHMENT TO GRANT
ATLAS Space Operations, Inc
ICFS File No. SES-STA-20250910-00651

ICFS File No(s):	SES-STA-20250910-00651	GRANTED - With Conditions  Space Bureau
Licensee/Grantee:	ATLAS Space Operations, Inc	
Call Sign:	E190037	
Satellite Name:	PWSA-T1TL satellite supplied by York Space Systems	
Orbital Location: (required station-keeping tolerance)		
Administration:		
Nature of Service:		
Scope of Grant:	ATLAS Space Operations, Inc ("ATLAS"), is granted a 180-day special temporary authority (STA) to operate its satellite earth station to communicate with the PWSA-T1TL satellite supplied by York Space Systems.	
Service Area(s):	13° 30' 48.8" N, 144° 49' 31.1" E in Dededo, GU	
Frequencies:	Operations will be performed at the following center frequencies: 2049.0 MHz with an emission bandwidth of 440 kHz and 700 kHz (Earth-to-space) 2049.5 MHz with an emission bandwidth of 440 kHz and 700 kHz (Earth-to-space) 2050.0 MHz with an emission bandwidth of 440 kHz and 700 kHz (Earth-to-space) 2223.7 MHz with an emission bandwidth of 1 MHz and 1.25 MHz (space-to-Earth) 2225.7 MHz with an emission bandwidth of 1 MHz and 1.25 MHz (space-to-Earth) 2227.45 MHz with an emission bandwidth of 1 MHz and 1.25 MHz (space-to-Earth)	
Operations under this grant must comport with the legal and technical specifications set forth by the applicant or petitioner and with Federal Communication Commission's rules not waived herein. This grant is also subject to the following conditions: 1. STA operations must not exceed the operational power levels and parameters requested and coordinated, and must comport with the technical specifications described in the underlying application, except as conditioned in this grant of STA. 2. STA operations must use the minimum power level necessary to establish communications links in order to minimize potential interference to licensed users. 3. All operations under this grant of STA must be on an unprotected and non-interference basis (NIB), i.e., ATLAS must not cause harmful interference to and must not claim protection from interference caused to it by any other lawfully operating station. 4. In the event of any harmful interference caused by operations under this grant of STA, ATLAS must immediately cease operations upon notification of such interference. ATLAS must immediately inform the Commission, in writing, of such an event. 5. Earth station transmissions in the 2025–2110 MHz band are subject to prior coordination with the local Society of Broadcast Engineers, Inc. (SBE) frequency coordinator. Consult the list at https://sbe.org/resources/frequency-coordination/ to find the appropriate coordinator. 6. Operations pursuant to this authorization are intended to support a federal space mission and must adhere to any current or future operational conditions that result from the federal pre-coordination process. 7. The 24/7 point of contact in the United States, with authority and ability to cease all emissions, for this operation is the Operations Office at +1 (231) 598-6184 x 222 or +1 (877) 392-8527 x 222,		

ops@atlasspace.com.

8. STA operations must be in compliance with earth station applicable operations allowed by the space station authorization(s) or grant(s), including all relevant conditions, waivers, and findings therein.

This grant is issued pursuant to section 0.261 of the Commission's rules on delegated authority, 47 CFR § 0.261, and is effective upon release. This STA is authorized pursuant to the Commission's rule 47 CFR § 25.120.
